Show your employees you care.

We are very pleased that we can now offer self-service coffee making machines that can be installed in your office or business for your employees and visitors to use.

Business Lunch Express has been using Tchibo Coffee for six years. We understand the importance of quality, fresh ground coffee, the great flavour and that satisfying feeling you experience as you drink it.

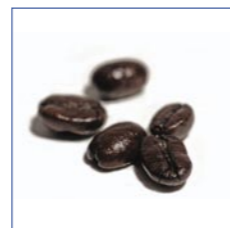

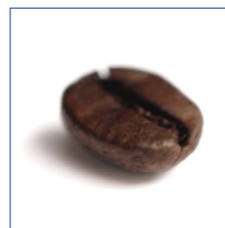

We develop complete, individual solutions - including modern furniture concepts. This could include a single coffee maker right up to an in-house coffee-shop concept for your office. We provide a selection of coffees and branded accessories to meet your tastes and preferences.

- We will arrange installation
- We will visit every day and clean & refill the machines
- All you have to do is enjoy the flavour

You can have fresh ground "bean to cup", coffee (yes it grinds the coffee for each cup)... for as little as 49p* per cup.

Tchibo International Coffee is a recognised High Street brand which is reassuring for you to have this smart profile in your office. As the world's fifth-largest coffee producer, Tchibo is the market leader for roasted coffee in Germany, Austria, Poland, the Czech Republic and Hungary.

For more information please call us on 01635 867229

* Some contracts may involve a monthly rental charge.

BusinessLunchExpress.com

We offer a catering service for office, business and corporate events with a delivery service to a venue of your choice.

Our catering services run from a simple 'fresh sandwich', to a breakfast menu, a boardroom gourmet platter, a cold platter buffet, a soft drinks and wine list, hire of china, linen and glassware... to coffee and biscuits with waiting staff to serve if required.

We also provide a table-top service to some offices where we set up a sandwich/baguette bar and open for one hour in the office selling baguettes and snacks.
